RE: Permit #WQ0015688001

This correspondence is in reference to Permit #WQ0015688001 concerning the Silesia Properties, L.P., application of intent to obtain a water quality permit from TCEQ in western Comal County, Texas, an area designated as a Priority Groundwater Management Area (PGMA).

The Comal Trinity Groundwater Conservation District (CTGCD) requests a public meeting be held on this application and intent to obtain a water quality permit in order to give the residents of this area an opportunity to express their concerns and ask questions to TCEQ about the permit. We request this hearing be held within western Comal County.

We would also request this application be considered as a non-discharge permit application.

The CTGCD request TCEQ conform strictly to its rules and regulations in its consideration of this permit. Should TCEQ grant this permit, Silesia Properties, L.P., should be held to the highest standards including the construction, daily operations and reporting requirements required of this proposed facility and its subsequent discharge. TCEQ must be diligent in its inspections and daily monitoring and operations of the facility. TCEQ must strictly assure the water quality of the discharge from the facility meets or exceeds all TCEQ standards.

Respectively requested and submitted,

Larry Hull  
President  
Comal Trinity Groundwater Conservation District
